

REFLECTION

A reflective mindset is necessary to find opportunities for growth and to recognize what gets us closer to our personal goals.

We are accountable to ourselves and must understand the underlying motivations for our actions in order to grow.

VIRTUE

Integrity, humility and honorable conduct are valued at RVGS.

Plagiarism, cheating, and data fabrication are in direct conflict with our goal of personal growth and improvement. Academic dishonesty will not be tolerated by anyone in our community.

GROWTH

We believe that students and teachers can fundamentally improve intelligence and skill sets through determined effort.

Our ultimate goals are personal growth, developing new skills, and acquiring and applying knowledge.

We value learning for its own sake over extrinsic rewards like grades and test scores.

SETTING GOALS

RVGS staff and students continuously set individual goals supported by realistic, concrete action steps.

Productive goals focus on the process needed to achieve desired outcomes.

DETERMINED

We realize that determination and persistence are essential to reaching our goals.

We realize that pride and self-respect come from finding resolve when faced with challenges.

We reach out to others when we need help and show support for others when they ask for assistance.
